

## 2024 Music Mini-Grant Application – Arts Enrichment Program

The PACE Foundation partners with Putnam County music teachers to increase funding for private lessons for students who might not otherwise be able to afford them. Requirement for receiving the grant include:

- 1) Teacher agrees to submit the student's name and type of music lessons to be given, and the cost of those lessons annually. Funded students should have financial need and demonstrate a commitment to learning and practice.
- 2) After 4 and 12 months of lessons, the teacher agrees to email a brief update about whether the student is continuing to take lessons and is progressing in competency.

Upon approval, PACE will pay up front for six months of lessons. Once the 4-month summary is received, if the student is actively participating in lessons, PACE will pay for the remaining six months of lessons.
